

SHALE-TEK DRYER SYSTEM

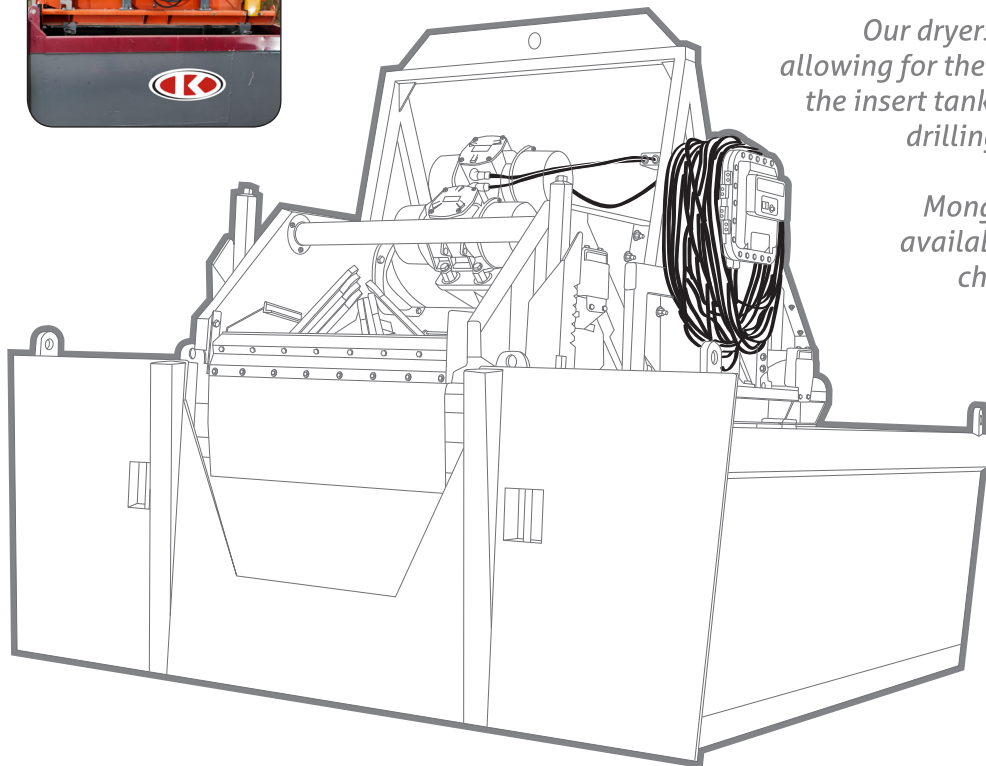

Ketek has been a leader in shale drying for two decades. Providing the time tested linear motion ALS shaker delivering unmatched solids removal.

Ketek has three proprietary designs to match any drilling rig, reducing the need for ground disturbance.

Our dryers are modular allowing for the placement of the insert tank after surface drilling is complete.

Mongoose shakers available with quick change screens.

FLUID HANDLING

Features:

- Adjustable Linear Shaker
- 2 inch fluid recovery pump w/optional remote switch
- Circulation manifold
- Shaker canopy (optional)
- Dryer shale cuttings
- Recovers drilling fluids
- Reduces cleanup costs
- Industry leading fluid recovery rates puts the most fluid back into active system which lowers fluid costs
- 230/460 Volt, 3 phase, 30 amp

Dimensions:

- 5,000 L insert tank
- 3.6 m (11' 9") x 12 m (39' 4") open end shale tank
- Combined Dryer and Tank Weight - 13,766 kg (30,350 lbs)
