Rentals

Ketek Group, A leader in Oilfield Rentals and Service, has been operating to meet the demands of our clients for over thirty five years.

Ketek prides itself on servicing our client's needs in a safe, efficient, and cost-effective manner. We would like to highlight Ketek's capability to provide solutions for our clients rental needs. Ketek is able to provide a wide variety of equipment specially designed to assist our clients with their projects.

Our rental fleet is split into the following categories; Buildings, Fluid Handling, Fuel Storage, Heating, Matting, Power & Light, Pumps, Sewage Waste, Solid Waste, Tanks, Water Management, and Other Equipment.

POWER & LIGHT

With hundreds of Light Towers and Generators, Ketek can supply projects of any size. Our generators range in size from 6 kW to 500 kW, this enables us to provide the right generator for any job.

PUMPS

Ketek has a fleet of diesel pumps that can be used for multiple applications including: dewatering, large volume fluid transfer, sewer by-pass, emergency flood response, etc. With both high volume and high head pumps, Ketek can source the correct pump for your specific need.

Ketek also has a large fleet of Flygt electric submersible pumps. With these industry leading pumps, Ketek can satisfy almost any requirement. With Sump pumps that range from 2" to 8" and 2" and 6" Trash pumps, we can find the pump that best suits your needs.

WATER MANAGEMENT

In addition to our pumps, Ketek's fleet includes manifolds, frac manifolds, filter pots and aluminum pipe and high pressure hose.

TANKS

Ketek offers a wide variety of tanks. We have Surface Floc tanks, 400 BBL tanks, Mixing tanks and Shale tanks.

FLUID HANDLING

The fluid handling line consists of Enviro Vacs, Shale Dryers, Wash Guns, Vapour fans, Sample Washers, Transtek Fluid Pumps and line crossings. With over three decades of experience, Ketek has amassed very valuable experience and custom manufactured equipment to help any challenges that our clients may encounter.

Rentals

FUEL STORAGE

Ketek's fleet of fuel tanks ranges from small slip tanks to large 50,000 L holding tanks. We also have a large line of transportable fuel tanks; from 1,000 L to 4,700 L.

SOLID WASTE

Ketek's Forced Air incinerators destroy solid waste (type 1-2-3) efficiently and help reduce the risk of contamination to the environment, humans and animals. It's safe, environmentally friendly and reduces greenhouse gas emissions (GHG) as compared to many other waste disposal options. Ketek also provides ash bins that conveniently store ash from the incinerators for eventual disposal at an approved landfill.

HEATING EQUIPMENT

Canada's cold winters make it necessary for a large fleet of heating equipment. Ketek has numerous Frost Fighter's, Ground Heaters and Allmand Maxi Heat heaters.

SEWAGE WASTE

Ketek can provide temporary sewage storage in a number of ways. Ketek has several sizes of Sewage Storage tanks as well as the support equipment to rig in temporary sewage systems.

MATTING

Ketek's Rig Mats provide a solid base for all drilling needs. Rig Mats can also be utilized as floors for field machine shops and warehouses, pipeline applications, tank and camp foundations, camp mats, and for environmentally sensitive applications.

BUILDINGS

Ketek's fleet of buildings focuses mainly on specialty units. We have several Fitness Buildings, Laundry Buildings, Recreation Buildings and Restroom Buildings. Ketek also maintains a large number of Geo Labs and Water Storage Buildings.
