

KETEK'S LINE CROSSINGS

Ketek Group designs and builds line crossings from 14' to 30' in length.

Ketek's line crossings are used to protect pipes, cables and hoses where traffic crossings are required. Ketek's crossings can be quickly placed across a roadway and anchored at each end. Pictured on this page is our 20' folding line crossing, which can accommodate up to 12" hose and handle 50,000 lbs per axle.

Maximum Capacity:

50,000 lbs
per axle

Part # 224350
Line Crossing Folding 20'

Results Driven.

KETEK
GROUP

Ketek carries a variety of line crossings of differing lengths. Contact us to discuss your specific needs.

FOLDED DIMENSIONS

L 20' W 8' 6" H 1' 8"

UNFOLDED DIMENSIONS

L 20' W 15' 10" H 1' 2"
