

# Rental Equipment & Services

From a leading supplier in Western Canada

**45** YEARS  
IN BUSINESS  
1979-2024

Ketek has the experience and talent to provide a wide variety of solutions to clients, from start to finish. We take pride in servicing client needs in a safe, efficient, cost-effective manner.

## SmartTEK

SmartTek is a versatile remote monitoring and control platform, integrating IoT technology with local automation. It offers real-time data, advanced analytics, and seamless control, optimizing the performance and reliability of industrial equipment across various applications.

KNOWLEDGE IS POWER, AND THAT POWER WILL LET YOU INCREASE OPERATIONAL EFFICIENCIES AND REDUCE COST:

- You'll need fewer trips to service and fuel equipment.
- You'll have more efficient employees and less downtime.

## Equipment Rentals

With over 10,000 primary rental assets and tens of thousands of auxiliary pieces, our fleet is meticulously maintained and continuously expanding. Backed by unparalleled service and support, Ketek ensures reliable, top-tier equipment for every project.

- Pumping / Water Management
- Generators & Light Towers
- Sewage / Solid Waste Equipment
- Fluid Handling / Storage
- Shale, Mixing and Floc Tanks
- Monitors / Meters
- Heating Equipment and more

# Services

## 24/7

ON-CALL SERVICE

## 365

DAYS A YEAR

### ENVIRONMENTAL SOLUTIONS

- Incineration / Composting
- Solid Waste Management

We provide innovative solutions to both new and existing challenges, focusing on reducing greenhouse gas emissions, optimizing energy consumption, and protecting our air, land, and water.

### MANUFACTURING SERVICES

Ketek offers comprehensive engineering, design, and drafting services, supported by a CWB-certified fabrication facility to meet and exceed client requirements. We are ISO 9001 certified for the design, manufacture, and maintenance of solid waste treatment equipment, as well as the maintenance of Flygt submersible pumps. Our commitment to quality extends across all operations through the application of ISO Management System principles.

### QA/QC

The recently established Ketek Quality Assurance and Quality Control (QA/QC) department, is dedicated to ensuring the highest standards of quality across every aspect of our operations. The QA/QC team is committed to delivering repeatable, high-quality products and services that meet and exceed client expectations.

### POWER SERVICES

- Electrical & Instrumentation
- Start-up & Commissioning
- Electrical Engineering
- Automation

Ketek's Power Services Group specializes in electrical construction, maintenance, and CSA-certified panel fabrication. Our expertise extends to engineering design, automation, and industrial control solutions, ensuring reliable and innovative power systems. We deliver high-quality, customized solutions for a wide range of industrial & commercial applications.

### SAFETY SERVICES

- Design and Implementation of a Safety Management System
- Incident Investigation
- Loss Prevention Services
- Program Audit

### TRAINING SERVICES

Ketek provides training in ESC H2S Alive, ESC Fall Protection, ESC Mobile Elevated Work Platform, First Aid, Forklift, Loader, Skid Steer, Load Securement and more.
